## Schools' future

I THINK that the rural communities are vitally important to the unique character of Gwynedd and are vital to the survival of the Welsh language. That is one reason why I support the school re-organisation plan for the Tywyn area.

Unless we do something positive in the area, the schools will close themselves. My worry is that if we do nothing, there will be a slow but steady drift of children to Tywyn.

Young families will leave the area, to the detriment of the rural

**Likewise the maps showed no indication of where on-site storage of spent fuel (twice as radioactive as current legacy**

communities that are so important to us all. The proposals that will be discussed by Gwynedd Council next week present a great opportunity to bring four schools together in a new area school.

The new school facilities will be a great boost to the area. Parents can feel secure about their children's education and the rural communities it will serve can benefit from an investment of confidence in the area from the Council.

As a county councillor, I have a duty to think about the future of ALL our communities – and ALL the children of Gwynedd. We only have one budget that has to work across the county.

We have to re-structure so that

the resources are spread in a fairer way. I believe that this re-structuring presents positive opportunities for rural areas like Dysynni – opportunities that can help protect their future – something that is important to all of us.

## Racist laws

IT was a sad day in English history that Osian Jones (Cymdeithas yr Iaith) had to sacrifice his freedom to protest against the racist law that makes the Welsh legally inferior in their own country and also ensures that the English are "legally superior".
